(Note: All printing equipment requires a wired internet connection. A 10ft ethernet cord is provided with each printer. Priority will not provide ethernet cords over this length. Merchant is responsible for having an access point, in the form of either a router, ethernet switch, or ethernet wall jack, available to plug the printer into prior to install. Priority does not install network equipment, configure internal networks, or run ethernet/CAT5/CAT6 wiring. Please contact your electrician or ISP (internet service provider) for assistance with these functions if necessary.)
